

Multi-Tasking Fluorescent

Today's shooting arena requires the ability to adapt quickly to changing conditions such as choosing daylight or tungsten and using harder or softer light. Format choices can easily range from High-Res Digital, to video or film, to whether you're shooting still or moving image. LowelScandles is the only multi-tasking fluorescent fixture designed for quick & easy choice of light size & quality, by quick change of accessories.

Its unique cluster arrangement of lamps make a whole new set of options possible for adding accessories to shape and direct the output.

Features

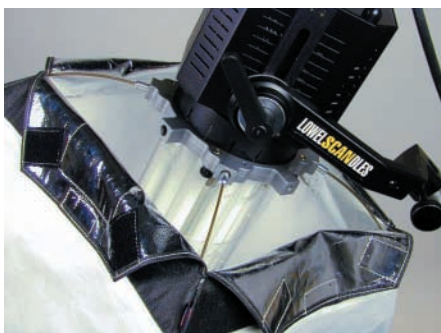

- **200 Watt daylight or tungsten balanced** light output from 8 lamp cluster, switched in pairs for easy variable output
- **Uses either eight 24 Watt (12" length) or eight 18 Watt (8" length) compact fluorescent lamps** (mfg. avg life: 10,000 hrs)

- **High efficiency output: 50 lumen/Watt**
- **Auto-setting dual-voltage input** (120/230 VAC, 50/60 Hz), flicker-free high efficiency internal ballast (39 kHz)
- **ETL/GSA Approved.**
- **Installed Universal Rotating Softbox Speed-Ring**
- **Quick attachment accessories include:**
 - Collapsible Cone Intensifier with Front Diffuser
 - Aluminum Side Reflector (adjustable for increased light control),
 - Special purpose Aluminum Cone Reflector for studio application

Chimera-style Lantern

Chimera-style Softbox

For convenient use with a chimera-style softbox, a rotating Universal Speed Ring is permanently installed on fixture. The Speed Ring accepts the following softbox attachments: Plume®, Chimera®, Westcott®, Photoflex®.

Side Reflector with adjustable doors

The original Scandles light has already made a name for itself in the imaging world. Gary Register has updated his design for Lowel with a reduced overall size, large grip handle, and adjustable stage for greater stability on stand, all at a substantially reduced price.
